

How to conduct a systematic review

Workshop Description

Take this two-day workshop to learn the basic skills of how to conduct a systematic review using Cochrane methods. You will learn and apply the steps including how to:

- Develop your research question
- Prepare to search the literature
- Screen and select studies
- Critically appraise the risk of bias of a randomised controlled trial
- Extract and analyse data
- Appraise and interpret the results using GRADE

Date and Time

- October 14th and 15th
- 9:00 AM - 5:00 PM

Location

- McMaster University, Hamilton Campus
- Building and Room: TBD

Cost & Registration

The registration fee for this course is **\$400**. This includes registration, materials, refreshments, and a certificate of completion. **To register, contact us at canada@cochrane.org.**
